Dear Friends

For children battling cancer, pain, fear and anxiety are a part of everyday life. Even a brief respite from this punishing disease can make a noticeable impact on a child's physical and emotional health.

This summer, in Zichron Menachem's 25th anniversary year, over 150 Israeli children and young people who are suffering from all kinds of cancers will spend an unforgettable week at summer camp in London. Away from their home environment, they are able to truly relax, replacing hospital visits and medical treatment with smiles, laughter and excitement.

This camp enables these children to participate in activities they cannot normally do from a hospital bed, including:

- trips to area attractions and theme parks
- the popular West End show Stomp
- a nightly party with singing and dancing

Time and time again we have witnessed a dramatic improvement in the kids' physical functioning and spirit that lasts far longer than the seven days they spend in

the UK. Knowing that there are kids right here in our own area who can benefit from our camp and activities, we also extend an invitation to attend to local children with cancer.

We have an incredible staff to help us give these kids the time of their life, including specialist doctors, nurses and counselors, who bring with them over 2.5 tonnes of medical equipment.

As you can imagine, the costs of funding this remarkable operation are considerable. But well worth it. And that's why we need your help. It is only thanks to donors such as yourself, who recognize Zichron Menachem's invaluable work, that together we are able to make a significant difference to these children's lives.

Your generosity will help us continue our valuable work.

With warm wishes,

Eli Seliger, Chairman,
Zichron Menachem UK

“When Eyal attended our last camp he hadn't spoken in six months. One evening at our party he asked a counsellor for a microphone and began singing Ani Ma'amin.

We sent his parents the video that evening and they watched with tears rolling down their cheeks.”
